ABOUT

‘YOUTH WORK SEAL: Taking youth work to the next level!’ is a youth participatory project (Key Action 154, Erasmus Plus programme) based on the on the relationship between active participation and youth work.

In particular, the project focuses on the sharing and use of best practices in youth work recognition. The project involves 5 youth organization from an international network from Italy, Malta, Portugal, Serbia, Lithuania and Hungary.

This set of infographics collects and analyzes key findings from online surveys and digital tools for participation. Hundreds of young European citizens residing mainly in the countries involved in the project.

The survey results revealed four issues for which young people are most sensitive and these are: combating climate change, gender equality, education and skills, and support for inclusion and cultural diversity. The fruits of this work will feed into a policy paper to be shared with local and European policy makers.
